

Kennesaw Pedestrian Tunnel Kennesaw, GA

PROJECT OVERVIEW AND CHALLENGES

Bradshaw hand tunneled 7 feet under a busy CSX Railroad serving Atlanta, GA to install 115 feet of 13 foot diameter tunnel with only 5'-7' of cover between the tunnel and the tracks. The tunnel supports were steel liner plate lined with epoxy paint. It was part of a new park celebrating railroad history and provided a much needed pedestrian underpass. Compensation grouting and real-time monitoring was utilized successfully to alleviate settlement of the railroad tracks.

PROJECT INFORMATION - 486

OWNER:

Kennesaw Pedestrian Tunnel
Steve Kennedy
(770) 424-8274

ENGINEER:

URS
Scott Caples
(678) 808-8815

CONTRACTOR:

JJE Constructors

COMPLETION DATE:

12/19/2009

GEOLOGY:

Clay, Sand

EXCAVATION METHOD:

Hand Mine

MINING DIMENSIONS:

115' x 13' Ø

FINAL LINING:

156" Steel Liner Plate
